

Renadyl[®]

Take Control of Your Kidney Health

A conversation guide to help you and your healthcare provider explore Renadyl[®] as part of your kidney health plan.

Are you at risk for Chronic Kidney Disease?

Experiencing symptoms even while following your CKD treatment plan?

Even when you're doing your best to manage CKD, symptoms can still appear or change over time. Talk to your healthcare provider if you notice any of the following. These could be signs that your kidneys need additional support.

I've been dealing with:

- Tiredness or lacking energy
- Loss of appetite or changes in taste
- Bloating or abdominal discomfort
- Itchy or dry skin
- Swelling in ankles, feet, or hands
- Nausea or queasiness
- Trouble sleeping or restless nights
- Brain fog or trouble concentrating

I've noticed:

- Change in urine color (dark or foamy)
- Decreased urine output or frequent urination
- Change in blood pressure (higher or lower)
- Weight gain or loss
- Shortness of breath (even with little effort)
- Swelling in my abdomen or legs

If these symptoms sound familiar, **here are a few questions to ask your healthcare provider about Renadyl.**

How does Renadyl work?

Is Renadyl right for me?

How long will I need to take Renadyl?

Is Renadyl safe?

What is Renadyl?

Renadyl is a patented, proprietary pre/probiotic dietary supplement that is scientifically formulated and clinically tested to help reduce bloodstream concentrations of nitrogenous waste metabolites, such as urea, uric acid, creatinine, and other compounds and helps stabilize a healthy gut.

Health Benefits

Helps maintain healthy kidney function

- ✓ Metabolizes and reduces (consumes) urea, uric acid, creatinine, indoles, phenols, nitrosamines, and other nitrogenous waste products
- ✓ Helps strengthen the gut microbiome
- ✓ May stabilize eGFR
- ✓ Helps reduce inflammation
- ✓ Helps improve quality of life

Clinically-Documented Formulation

Dosage Information

Take 1–2 capsules daily with a meal or as directed by your physician. Renadyl should be taken for at least six months, and consistent use should be maintained to receive the full benefits.

SUPPLEMENT FACTS

Serving Size: 1 Capsule
Servings Per Container: 60

	Amount per Capsule	% Daily Value
Proprietary Blend	45 Billion CFU*	
<hr/>		
S. thermophilus (KB19)		
<hr/>		
L. acidophilus (KB27)		
<hr/>		
B. longum (KB31)		
*CFU = Colony Forming Unit prior to expiration		
**Daily Value (DV) not established		
Other Ingredients: Xylo-oligosaccharide (prebiotic), Inulin (prebiotic), Magnesium Stearate		

How It Works

Renadyl works in 2 ways

1 Enteric Toxin Removal

- Probiotics in Renadyl reach the colon and break down uremic toxins
- As they metabolize toxins, they multiply and enhance further toxin removal
- Metabolized toxins are eliminated as waste, reducing kidney workload

2 Microbiome Modulation

- Probiotics boost short-chain fatty acid production.
- Strengthen the intestinal barrier.
- Reduce leakage of inflammatory molecules and uremic toxins.
