

# Renadyl<sup>®</sup> The Ultimate Probiotic for Healthy Aging and Longevity

## What is Renadyl?

Renadyl is a targeted probiotic formulated to help maintain healthy kidneys and support healthy aging. Its proprietary strains work in the gut to help metabolize nitrogen-based waste, supporting long-term wellness through the gut–kidney connection.

## Health Benefits

- ✔ Promotes a healthy gut microbiome and protects against “leaky gut”
- ✔ Reduces uremic toxins and creatinine
- ✔ Reduces Inflammation
- ✔ Support natural detoxification and waste removal
- ✔ Helps maintain estimated glomerular filtration rate (eGFR), a primary measure of kidney function

## Clinically-Documented Formulation

### TOTAL CFU = 45 BILLION

Renadyl contains 3 strains of naturally occurring, beneficial probiotic bacteria:

- Streptococcus thermophilus (KB19)
- Lactobacillus acidophilus (KB27)
- Bifidobacterium longum (KB31)

## SUPPLEMENT FACTS

Serving Size: 1 Capsule  
Servings Per Container: 60

	Amount per Capsule	% Daily Value
<b>Proprietary Blend</b>	45 Billion CFU*	
S. thermophilus (KB19)		
L. acidophilus (KB27)		
B. longum (KB31)		

\*CFU = Colony Forming Unit prior to expiration  
\*\*Daily Value (DV) not established  
Other Ingredients: Xylo-oligosaccharide (prebiotic), Inulin (prebiotic), Magnesium Stearate

## Consumption Information

- Take 1–2 capsules daily with a meal or as directed by your physician. Renadyl should be taken for at least six months, and consistent use should be maintained to receive the full benefits.

## What is the Gut-Kidney Axis

The gut and kidneys are closely connected, and together they play a critical role in detoxification, inflammation, and the aging process.

### Kidneys

The kidneys play a central role in healthy aging by helping regulate:

- Detoxification and waste removal
- Blood pressure and electrolyte balance
- Acid balance
- Vitamin D activation and other essential processes

As we age, kidney function normally declines, becoming less efficient at removing wastes and toxins. This contributes to an increase in inflammation, oxidative stress and aging.

### Gut

As we age, the gut microbiome also changes:

- Increased dysbiosis and “leaky gut”
- Reduction in good bacteria, such as lactobacilli and bifidobacteria, and increase in harmful bacteria.

Uremic toxins and creatinine increase and can enter the body through the gut lining, increasing inflammation and accelerating aging.

### The Good News?

Renadyl helps the gut and kidneys work together naturally by reducing uremic toxins, easing inflammatory burden, and supporting healthier aging over time.

#### All Natural

Renadyl is 100% natural, non-GMO, gluten-free, lactose-free, and sugar-free.

#### Acid-Resistant Capsule and Probiotic Strains

Resist stomach acid and go straight to work in the intestines.

#### Side Effects

Side effects are rare. Mild, temporary bloating may occur and usually disappears after 2-3 weeks of use.
