Renadyl®

THE ULTIMATE PROBIOTIC FOR KIDNEY HEALTH

PRODUCT INFORMATION

What is Renadyl?

Renadyl is a patented, proprietary pre/probiotic dietary supplement that is scientifically formulated and clinically tested to help reduce bloodstream concentrations of nitrogenous waste metabolites, such as urea, uric acid, creatinine, and other compounds and helps stabilize a healthy gut.

Health Benefits

Helps maintain healthy kidney function

- Strengthens the gut microbiome:
  - Boosts short chain fatty acid production
  - Supports gut lining integrity to protect against “leaky gut”
  - Boosts healthy/”good bacteria”
- Helps reduce uremic toxins, uric acid, and creatinine
- Reduces pro-inflammatory compounds such as p-creosol sulfate and TMAO

Clinically-Documented Formulation

TOTAL CFU = 45 BILLION

Renadyl contains 3 strains of proprietary, beneficial probiotic bacteria:

- Streptococcus thermophilus (KB19)
- Lactobacillus acidophilus (KB27)
- Bifidobacterium longum (KB31)

SUPPLEMENT FACTS

Serving Size: 1 Capsule

Servings Per Container: 60

	Amount per Capsule	% Daily Value
Proprietary Blend	45 Billion CFU*	
S. thermophilus (KB19)		
L. acidophilus (KB27)		
B. longum (KB31)		

*CFU = Colony Forming Unit prior to expiration

**Daily Value (DV) not established

Other Ingredients: Xylo-oligosaccharide (prebiotic), Inulin (prebiotic), Magnesium Stearate

Consumption Information

- Take 1–2 capsules daily with a meal or as directed by your physician. Renadyl should be taken for at least six months, and consistent use should be maintained to receive the full benefits.

Renadyl®

How It Works

Renadyl works in 2 ways.

1 Enteric Toxin Removal:

- When the kidneys become impaired or damaged from disease, uremic toxins build up in the blood. Large numbers of these toxins enter the colon because of the extensive network of blood vessels around it.
- Once Renadyl enters the GI tract and then the colon, the probiotics in Renadyl target and metabolize uremic toxins.
- As they metabolize the uremic toxins, the probiotics multiply and this, in turn, allows for even a greater diffusion of toxins from the bloodstream into the colon for metabolization.
- Metabolized, neutralized toxins are then carried out of the body as solid fecal waste, sparing the kidneys of the burden.

2 Microbiome Modulation:

- The probiotics in Renadyl increase short chain fatty acid production, improve intestinal epithelial integrity, and decrease “leaky gut”; i.e., leakage of inflammatory cyto – and chemokine and uremic/CV toxins back into the bloodstream.

All Natural

Renadyl is 100% natural, non-GMO, gluten-free, lactose-free, and sugar-free.

Acid Resistant

Acid-resistant capsules provide targeted release in colon.

Side Effects

Side effects are rare. Mild, temporary bloating may occur and usually disappears after 2-3 weeks of use.
